

GST

ROLLER SERIES

The GST series is GURTEC's original multipurpose roller line, with a robust design to suit various applications and belt widths.

Manufactured in Germany using our fully automated production lines, our GST rollers meet international materials handling standards.

APPLICATIONS

MEDIUM
DUTY

MULTIPURPOSE

BULK
HANDLING

MASS PRODUCED

Our fully automated production line ensures precise standardisation and mass production with attractive pricing and delivery times.

UNIVERSAL DESIGN

The GST series incorporates a rugged design across several variations, creating suitability for various applications and belt widths.

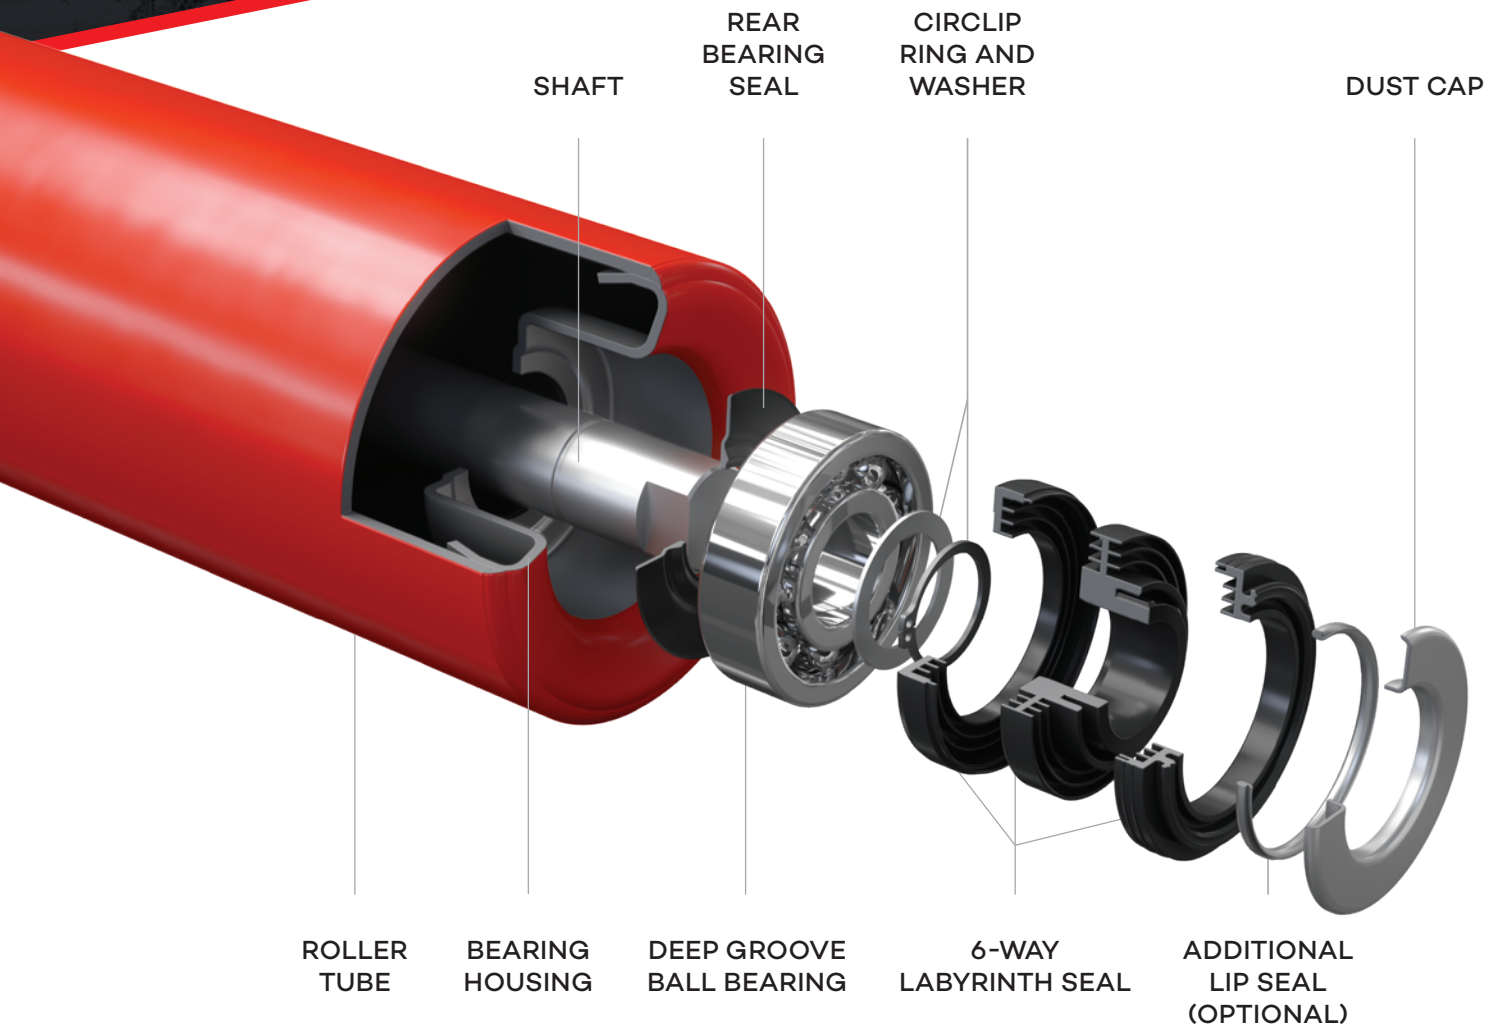

INNOVATIVE DESIGN

Our in-house manufacturing process is designed to create strong, durable rollers able to withstand harsh environments and technical requirements.

MAIN DATA

Tube Diameters	Ø63,5x1,75 / Ø88,9x2,9 / Ø108x3,25 / Ø133x3,6 / Ø159x4,5 mm
Tube Thickness	1,75 / 2,9 / 3,25 / 3,6 / 4,5 mm
Shaft Diameter	20 / 25 / 30 / 40 mm (more on request)
Bearing Type	6204 / 6205 / 6305 / 6206 / 6306 / 6308
Standard Length	200 – 1800 mm
